GASOLINE BULK PLANTS

Company Name _____ **Contact Initials** _____

Please fill in all spaces, and retain a copy for your records. Use a separate form for each gasoline bulk plant. Enter throughput in units of thousands of gallons (mgal). For example, 234,600 gallons equals 234.6 mgal. Note that aviation gasoline (av-gas) is considered gasoline for this report. Jet fuel is not considered gasoline.

	mgal
Gasoline loaded into storage tanks	
Gasoline loaded into vehicles	
Gasoline loaded into gasoline delivery vessels	
Switch loads with gasoline as prior	
Av-gas loaded into storage tanks	
Av-gas loaded into planes	
Av-gas loaded into mobile refuelers	

For the purpose of this survey, a switch load is loading diesel fuel, or any fuel other than gasoline, into a gasoline delivery vessel (tanker wagon) where the previous load was gasoline.
