Old Car Buyback Program --Turn Your Old Car into \$800!

The San Luis Obispo County Air Pollution Control District will pay \$800 to voluntarily retire old cars, trucks or vans that meet program requirements.

To participate in the program the vehicle must be:

- 1992 or older;
- Registered in San Luis Obispo County for the past 2 years;
- Gas or diesel powered;
- Passenger car, light or medium duty truck or van;
- In operating condition;
- Additional requirements may apply.

Call 1-800-717-7624 to participate in the program and to obtain information on other program requirements. Funding is limited to the first 175 vehicles. To date, thirty-five (35) vehicles have been retired through this program. Additional information can be found at www.slocleanair.org.

Motor vehicles produce more than half of the air pollution in San Luis Obispo County. A 2009 vehicle is 126 times cleaner than a 1992 vehicle. Removing older vehicles from the roadways helps clean up the air. The Old Car Buy-Back Program is funded with a portion of DMV funds collected in 2008.
