

PROTECT YOUR CLIMATE

AIR POLLUTION
CONTROL DISTRICT
COUNTY OF SAN LUIS OBISPO

Welcome to the Protect Your Climate Curriculum Program!

- Curriculum contains 16 science-based lessons for 4th and 5th grade.
- Lessons investigate the science behind climate change discussions and how students can take action to reduce greenhouse gas emissions.
- Hands-on activities explore air quality, energy, waste, and transportation issues related to climate change.
- Science and State Content Standards are addressed.

This Protect Your Climate Curriculum was developed by the Bay Area Air Quality Management District (BAAQMD) and has been modified by the San Luis Obispo County Air Pollution Control District (APCD). BAAQMD has allowed its curriculum to be used and adapted as appropriate by other air districts, local governments, and government organizations. BAAQMD is not responsible for the modifications, additions, and any changes in information and content made to the Protect Your Climate curriculum by other entities. To view and download the original BAAQMD Protect Your Climate curriculum visit www.baaqmd.gov.
